

Zona Time Tracker — Testing Checklist

Tester: Pawel

Date: _____

Environment: https://dev-time.zonaproperties.ae

Before You Start

Use the following accounts during testing:

Account	Email	Password	Role
Admin	pawel@zonaproperties.ae	ZonaPilot2026!	Administrator
Employee	testowy@example.com	TestPilot2026!	Employee

Admin Testing (Desktop or Laptop)

Log in with the **Admin** account to complete this section.

Login & Dashboard

- ☐ **1. Login** — Go to https://dev-time.zonaproperties.ae and log in as Admin. Verify you land on the Dashboard.
- ☐ **2. Dashboard overview** — Check that Today at a Glance cards show meaningful numbers. Note any inconsistencies.
- ☐ **3. Live Check-ins** — Verify the table shows currently active sessions (if any).
- ☐ **4. Alerts** — Check the Alerts section. Are any alerts shown? Do they look correct?
- ☐ **5. Dashboard refresh** — Click the Refresh button. Verify the page updates.

Employees

- ☐ **6. Employee list** — Navigate to Employees. Verify the list loads with names, roles, and statuses.
- ☐ **7. Search employees** — Use the search field to find an employee by name.
- ☐ **8. Open employee record** — Click on an employee to open their detail view.
- ☐ **9. Create a new employee** — Create a test employee (you can deactivate them after). Verify the record appears in the list.

- ☐ **10. Edit an employee** — Change any field (e.g. phone number) and save. Verify the change is reflected.

Projects

- ☐ **11. Project list** — Navigate to Projects. Verify projects are listed including TEST PROJECT - PILOT.
- ☐ **12. Open a project** — Click on any project to open the detail view.
- ☐ **13. Create a new project** — Create a test project with a name and code. Verify it appears in the list.
- ☐ **14. Edit a project** — Change the project name or status and save. Verify it updates.

Time Entries

- ☐ **15. Time entries list** — Navigate to Time Entries. Verify entries load.
- ☐ **16. Filter by employee** — Use the employee filter to show only entries for one person.
- ☐ **17. Filter by date** — Change the date range and verify the list updates.
- ☐ **18. Export to Excel** — Click Export and verify a file downloads.

Extras & Mileage

- ☐ **19. Extras list** — Navigate to Extras. Verify the list loads with statuses.
- ☐ **20. Mileage list** — Navigate to Mileage. Verify entries load.

Employee Testing (iPhone)

Log out from the Admin account. Use the **Employee** account for this section.

PWA Installation

- ☐ **21. Open in Safari** — Open <https://dev-time.zonaproperties.ae> in Safari on your iPhone.
- ☐ **22. Log in as Employee** — Log in with testowy@example.com / TestPilot2026!
- ☐ **23. Install to Home Screen** — Use Share → Add to Home Screen. Verify the icon appears.
- ☐ **24. Launch from icon** — Close Safari, tap the Home Screen icon. Verify it opens in full-screen mode.

Employee Functions

- ☐ **25. Check In** — Tap Check In, select TEST PROJECT - PILOT, and confirm. Verify the session starts.

- ☐ **26. Dashboard update** — Switch to the Admin account (on a desktop) and verify the employee appears in Live Check-ins.
 - ☐ **27. Check Out** — On the employee device, tap Check Out. Verify the session ends.
 - ☐ **28. My Time** — Tap My Time. Verify the completed session appears.
 - ☐ **29. Add Extra** — Submit an Extra Work item with a description. Verify it appears in My Time / Extras.
 - ☐ **30. Add Mileage** — Submit a mileage entry with a distance. Verify it saves.
-
